

EC Declaration of Conformity

This is to certify that the:

Rea Azalea & Rea Azalea Assist

This declaration applies to all products registered with the national supervisory body, by INVACARE REA AB. In Sweden this is The National Board of Health and Welfare. Registered products are furnished with the CE mark.

The declaration includes manual wheelchairs, plus appurtenant accessories. The wheelchairs are sold under the names Rea Azalea and Rea Azalea Assist. Furthermore, the chairs are furnished with unique identification.

The requisite manufacturing details are evident from construction documentation and quality handbook.

Risk analyses have been carried out for all products where it has been deemed necessary. We have very extensive experience of certain products, through practical user test. Such information acts as risk analyses for these products.

The following standards is used for applicable components: EN 12 18 3.

Directions necessary for use of products, plus other technical and general information are produced and distributed with the product. In cases where information is not supplied, use of the product is deemed to be both obvious and safe.

Reporting regarding accident and/or near misses should be made to the manufacturer, so as to initiate corrective action. Procedures for this have been formulated.
