

## All New Knee Walker

### Features & Benefits

**Code 790N**

- A mobility device for foot or ankle injuries for patients who cannot bear weight on the affected area
- A great short term alternative to crutches which can have adverse effects such as under arm pain from extended use
- Patient flexes knee, and padded platform pad supports the shin of the unusable limb
- The opposite foot makes contact with the floor, providing propulsion
- Folding frame for storage and transportation
- Height adjustable moulded handles
- Handbrakes can be locked for added stability
- Large 8" castors for greater manoeuvrability and mobility outdoors

**SPECS :** Knee Pad Width 190mm , Knee Pad Length 380mm, Knee Pad Height 420mm – 510mm, Over all Width 450mm, Over all Length 820mm , Handle Height 770mm – 920mm, Weight 12.4KG, Weight Capacity 150KG.
